Influence of Jacobinism on the Public Credit.

Senator Doolittle, in a speech delivered at Milwaukee on the 21 of August, said:

Every day confirms my opinions of the wisdom and justice of the plan of pacification proposed by Mr. Lincoln, and renewed by Mr. Johnson more than three years ago. I have no more doubt than of my existence if that plan had been suffered to be carried out by Congress—

The States of the South would have been fully reorganized upon the civilized white basis, and their representatives admitted three years ago. [Cheers. "That's so!"]

There would have been a more perfect restoration of harmony and friendly feeling than is now possible for years.

The industry of the South would have been restored, and with its restoration its great markets would have been reopened to the manufactures of the East, and to the breadstuffs and provisions of the West. [Cheers.]

The exports of her cotton, better than all the mines of the mountains, would have changed in our favor the balance of trade.

Our six per cent. bonds would have commanded a premium in gold in every money center in the world;

Specie payment, without shock or revulsion, would have resumed itself;

Our financial troubles far easier of solution;

Our taxes less burdensome, and our national credit so fully restored that a four per cent. bond would now command gold at par.

My friends, just about one year ago I was in Germany, at Frankfort-on-the-Main. While there, our bonds, bearing six per cent., sold at seventy-three in gold, while the bonds of Brazil, bearing only four per cent., sold for over ninety in gold. This fact, which I have stated elsewhere, I can never bring to mind without feeling my cheeks burn with shame and mortification. Why is it? Why is our credit lower than that of Brazil? It is simply because the Radicals in Congress would have it so; because they would keep the Union divided and the South paralyzed. They would allow no pacification which did not disfranchise the most intelligent whites, and force the universal, unqualified suffrage of the mass of ignorant and half-civilized blacks; and that, too, upon the ground, openly avowed, not that they were fit to vote, but that their votes could be used by the army and the Freedmen's Bureau to carry those States for the Radical candidate in the next Presidential election.

WHAT OUR ENEMIES SAY.

It is sometimes profitable to hear what is said of us by our enemies. While Vallandigham, Voorhies and other Northern Democrats are denouncing negro suffrage and supremacy, the Cincinnati *Commercial* thus replies:

When Rollins, the negro, is hailed as a great and shining light in the Democratic halls of Louisiana; when Democracy does not even disdain to put upon the stump in Tennessee and Georgia, side by side with Toombs, Cobb and Forrest, a black carpet-bagger from Philadelphia, like Joe Williams; when the proud Virginia Democracy recognize as a man and a brother Democrat an African some shades blacker than a coal hole; when Wade Hampton himself, in his eagerness to give color as well as body to his party, proposes to force into it an innumerable company of negroes by the starving process, to what complexion, men and brethren, is this great Government to come at last.

The whole energies of the Democratic party in the Southern States seem now to be directed to the absorption and interfusion of the colored element. Colored Democratic clubs, or Democratic colored clubs, are organized in every parish and township. The negroes are exhorted to come in and be one with us. When Seymour and Blair go riding up to the Capitol, and there shall be plunder to distribute and spoil to divide, you shall have something better, cries Joe Williams, from the Georgia stump, than forty acres and a mule. If you do not vote the Democratic ticket, shouts Wade Hampton, from South Carolina, you shall starve for bread.

And so, with menaces in one hand and promises in the other, these miscegenating propagandists of the faith go over the land, imploring, adjuring, beseeching, baiting the dazed negroes to join hands all in bringing on the day of jubilee, when white and black shall eat off the same plate, sleep in the same blankets and vote the same ticket. In their headlong pursuit of negro votes the Democracy of the South—and their example will prove infectious at the North—are rushing to greater extremes than the most radical of the Radicals have dared to venture in times past.

ALABAMA.

—The Henry County *Register* says the cotton crop in that county will turn out almost a total failure.

—The man Gwin, who killed Mr. Gladdall, has been arrested and committed to Frankfort jail.

—Mrs. E. G. Ligon, widow of the Hon. David G. Ligon, died near Moulton, on the 12th inst., aged sixty-three years.

—The Selma *Times* says the army worm is ravaging almost every cotton field in that portion of Dallas county, and the boll worm is heard of in many sections.

—John Hardy's paper lived to retract one of its lies, which was more than anybody expected of it. There couldn't have been a better time to die, says the Mobile *Register*.

—We learn from the *Register* that several of the late appointments of the City Councils of Mobile, made by the "so-called" Governor, have been refused by the appointees. Among those thus refusing, we recognise two quadroons—James Lyon and Gregoire Laurendine.

—The Montgomery *Picayune* says of sea-gulls: Our city was visited this morning by several sea-gulls. One alighted on a gentleman's pigeon-house, badly scaring the pigeons. They must have imagined it a Kuklux. How did they get here?

—At Meridianville, a few days ago, a young lad named Lipscomb, from South Alabama, was killed by being accidentally struck on the head with a stone thrown by a playmate.

—A large Democratic meeting was held at Linden on Monday, 17th. A white loyal leaguer named Williamson tried to raise a row, but the negroes would not listen to him.

EAGLE COTTON GINS.

We are the Sole Agents for the sale of these unrivalled Gin Stands. For beauty of STAPLE, LIGHTNESS OF DRAFT, AND QUANTITY OF LINT COTTON turned out per day, they are unsurpassed. Reference can be safely made to every planter who has given them a fair trial. Where mule power is used, they make a saving of from one-quarter to one-third the draft OVER ANY OTHER GIN. We are also agents for STRAUB'S GRIST MILLS, and WHEELER, CLEMSON & CO.'S CIRCULAR SAWS.

BY TELEGRAPH.

Noon Dispatches.

NEW YORK, August 26.—The health authorities are making efforts to suppress and destroy the disorder which has recently broken out among the cattle in the city. Every new drove that arrives is thoroughly inspected, and when any symptom of plague is visible, they are condemned. On Monday eighteen animals, from Missouri, were taken to the cattle-yard, on One Hundredth street, near East river, where two of them were subsequently discovered to be suffering from the disease. One of them being unable to stand, and another sick, were destroyed yesterday. The remaining sixteen, which were apparently well, have been quarantined.

A woman was arrested, as a vagrant, in Brooklyn, yesterday, who had two little girls with her. They denied that she was their mother, and the affair is supposed to be a case of kidnapping.

A street stabbing affray occurred on Atlantic street, Brooklyn, on Monday night, in which Thomas Cunningham, a young man, was stabbed by a German named Bondelestel. The wounded man died yesterday and Bondelestel was arrested. He confessed the stabbing of the deceased, but claimed that it was done in self-defense, which statement was corroborated by those who saw the occurrence.

COLUMBIA, S. C., August 26.—The Legislature here is still pressed for money.

WORSESTER, MASS., August 26.—A lad named Gibson, sixteen years old, belonging in Bain, was drowned in a pond this afternoon, at Sterling camp ground, while attempting to step from one boat to another.

COTTON GINS.

Pratt's Southern Made Cotton Gin

THIS GIN is regarded by planters who have used it, as the best for sample, picking the seed clean and light draught. Planters cultivating bottom lands are requested to examine the eureka Gin at Farrington & Howell's, 268 Front street. It will pay for itself in ginning fifty bales. A. N. GUNNISON, Manufacturer of the Steel Comb Gin before the war but now a planter, gives the following certificate:

"MEMPHIS, TENN., January 31, 1868.

"I take pleasure in recommending to planters cultivating Cotton on bottom lands of the Mississippi, Arkansas, White and St. Francis rivers, the Eureka Gin, made by Daniel Pratt, of Alabama. This Gin separates the hulls, bolls, etc., from the Seed Cotton, makes a good sample, and is superior to any other Gin for bottom lands. I have used one myself on a farm in Washington county, Miss., and it operates well and gives entire satisfaction in every respect. A. N. GUNNISON."

Orders for Gins, from 40 to 80 Saws and Gum Belting, at Factory Prices, addressed to the care of FARRINGTON & HOWELL, 268 Front street, Memphis, promptly filled. Frames and Gearing put up, and Gins repaired by a skilful Ginwright. G. W. TRUEHEART, jy26 Saw2m&w Agent for Daniel Pratt.

TEST OATHS, AND THE FRANCHISE LAW OF TENNESSEE.

[No. 6.]

The Constitution of the United States contains this agreement made with one another by all the States:

"No State shall pass any Bill of Attainder."

The Court, in *Cummings vs. The State of Missouri*, said:

"A Bill of Attainder is a legislative act which inflicts punishment without a judicial trial.

"If the punishment be less than death, the act is termed a bill of pains and penalties.

"Within the meaning of the Constitution, bills of attainder include bills of pains and penalties.

"In these cases, the legislative body, in addition to its legitimate functions, exercises the powers and office of judge; it assumes, in the language of the text-books, judicial magistracy; it pronounces upon the guilt of the party, without any of the forms or safeguards of trial; it determines the sufficiency of the proofs produced, whether conformable to the rules of evidence or otherwise; and it fixes the degree of punishment in accordance with its own notions of the enormity of the offence.

"Bills of this sort, says Mr. Justice Story, have been most usually passed in England during times of rebellion or gross subserviency to the Crown, or of intense political excitement; periods in which all nations are most liable, (as well the free as the enslaved,) to forget their duties, and to trample upon the rights and liberties of others."

"These bills are generally directed against individuals by name; but they may be directed against a whole class."

They might, the Court said, inflict punishment absolutely or conditionally; and they quoted these words of the Court of Appeals of Kentucky, in *Gaines vs. Buford*, 1 *Dana* 510: "A British act of Parliament might declare that if certain individuals or a class of individuals failed to do a given act by a named day, they should be deemed to be and treated as convicted felons or traitors. Such an act comes precisely within the definition of a bill of attainder; and the English courts would enforce it without indictment or trial by jury."

The Court said that the clauses in question, of the Missouri Constitution did create the deprivation of rights, without any of the ordinary forms and guards provided for the security of the citizen in the administration of justice by the established tribunals; that they presumed the guilt and adjudged the deprivation of rights, unless the presumption were removed by the expurgatory oath;—in other words, they assumed the guilt and adjudged the punishment conditionally.

They said that if the Constitution of Missouri had declared a direct deprivation of the rights in question, that would have been a bill of attainder; that the only difference between such a provision and the act in question would be that the former would *declare* the guilt, instead of assuming it. The Court said:

"The deprivation is effected with equal certainty in the one case as it would be in the other, but not with equal directness. The purpose of the law-maker in the case supposed would be openly avowed; in the case existing it is only disguised. The legal result must be the same, for what cannot be done directly cannot be done indirectly. The Constitution deals with substance, not shadows. Its inhibition was levelled at the thing, not the name. It intended that the rights of the citizen should be secure against deprivation for past conduct, by legislative enactment, under any form, however disguised. If the inhibition can be evaded by the form of the enactment, its insertion in the fundamental law was a vain and futile proceeding."

Passing to the consideration of the clause in the Constitution which forbids the passage of *ex post facto* laws, as affecting the case before them, the Court said:

"The clauses in the Missouri Constitution which are the subject of consideration, do not, in terms, define any crimes, or declare that any punishment shall be inflicted, but they produce the same result upon the parties against whom they are directed, as though the crimes were defined and the punishment declared. They assume that there are persons in Missouri who are guilty of some of the acts designated. They would have no meaning in the Constitution, were such not the fact. They are aimed at past acts, and not future acts. They were intended especially to operate upon parties who, in some form or manner, by action or words, directly or indirectly, had aided or countenanced the rebellion, or sympathized with parties engaged in the rebellion, or had endeavored to escape the proper responsibilities and duties of a citizen in time of war; and they were intended to operate by depriving such persons of the right to hold certain offices and trusts, and to pursue their ordinary and regular avocations. *This deprivation is punishment;* nor is it any less so because a way is opened for escape from it by the expurgatory oath. The framers of the Constitution of Missouri knew at the time that whole classes of individuals would be unable to take the oath prescribed. To them there is no escape provided. To them the deprivation was intended to be, and is, absolute and perpetual. *To make the enjoyment of a right dependent upon an impossible condition is equivalent to an absolute denial of the right under any condition;* and such denial, enforced for a past act, is nothing less than punishment imposed for that act. It is a misapplication of terms to call it anything else."

When the law says to an individual, "If you do such an act, you shall be deprived of the right to vote," that law is valid. It tells the individual, *before* he does the act, what one of its consequences will be; and as he does it afterwards, with full knowledge that in doing it he incurs that penalty, it is just that he should suffer it.

But if the law says to him, "*Because* you *have* done such an act, you shall not vote," when there was no such penalty denounced, no law that caused such a consequence, when the act was done, this is invalid, for it is an *ex post facto* law, forbidden by the Constitution. It imposes a punishment which was not a consequence of the act, when it was done. In some respects, the Court showed, the provisions of the Missouri Constitution were *ex post facto*, punishing as offences acts that were not offences defined and punishable by law when they were done; and in other respects they were so, because they imposed punishment additional to that prescribed when the act was committed.

A law that says to an individual, "If you commit such an act, you shall, upon conviction thereof by due process of law, be deprived of the right to vote," is a valid law. But a law which says to him, "If you will not swear that you have not done such an act, you shall be deprived of the right to vote," is invalid, and equally so whether that particular punishment had or had not been prescribed before the act was committed.

The effect of test oaths is to convict without trial, by requiring a man to prove his innocence by his oath. The Court said, of the clauses in the Missouri Constitution which had that effect:

"The clauses in question subvert the presumption of innocence, and alter the rules of evidence, which heretofore, under the universally recognized principles of the common law, have been supposed to be fundamental and unchangeable. They assume that the parties are guilty. They call upon the parties to establish their innocence; and they declare that such innocence can be shown only in one way—by an inquisition, in the form of an expurgatory oath, into the conscience of the parties."

The Court showed that the enactments in question accomplished precisely what would have been accomplished by provisions *ex post facto* in their nature, directly providing for punishment by deprivation of the right to vote. They said that these imposed the same penalty, without the formality of a judicial trial and conviction; that if that which could not be accomplished by means looking directly to the end, could be accomplished by indirect means, the inhibition of the Federal Constitution might be evaded at pleasure. They said:

"No kind of oppression can be named, against which the framers of the Constitution intended to guard, which may not be effected. Take the case of a man tried for treason and acquitted, or if convicted, pardoned;—the Legislature may, nevertheless, enact that, if the person thus acquitted or pardoned does not take an oath that he never has committed the acts charged against him, he shall not be permitted to hold any office of honor or trust or profit, or pursue any avocation in the State."

They said that if the Constitutional provision could be so evaded, and the persons now in the minority should obtain the ascendancy in the State, and secure the control of the Government, they could disqualify every man to vote or hold office, or pursue any avocation, who would not swear that he had never advocated or advised or supported the imposition of the present expurgatory oath. "Under this form of legislation," the Court said, "the most flagrant invasion of private rights, in periods of excitement, might be enacted, and individuals and even whole classes, be deprived of political and civil rights."

The Court quoted, in conclusion, some passages of a paper left by Alexander Hamilton, on the subject of expurgatory oaths, used as a means of inflicting punishment for past conduct; and said that he demonstrated that it was not only a mode of inflicting punishment, but a mode in violation of all the constitutional guarantees secured by the Revolution, of the rights and liberties of the people.

He said, among other things cited:

"It was an evasion of the Treaty, and a subversion of the great principle of social security, to-wit: that every man shall be presumed to be innocent until he is proved guilty. This was to invert the order of things; and instead of obliging the State to prove the guilt, in order to inflict the penalty, it was to oblige the citizen to establish his own innocence to avoid the penalty. It was to excite scruples in the honest and conscientious, and to hold out a bribe to perjury. . . . It was a mode of inquiring who had committed any of these crimes to which the penalty of disqualification was annexed, with this aggravation, that it deprived the citizen of the benefit of that advantage, which he would have enjoyed by leaving, as in all other cases, the burthen of proof upon the prosecution."

"To place the matter in a still clearer light," Mr. Hamilton supposed precisely such a case as that which exists in Missouri and Tennessee, as one about which nobody could doubt. He asked whether, if the Legislature were to declare that every citizen who would not swear that he had never adhered to the King of Great Britain should incur all the penalties which the laws against treason prescribed, this would not be a palpable and direct infringement of the Constitution? The *degree* of punishment, he said, was all that distinguished the cases. And he said, "In either, justly considered, it is substituting a new and arbitrary mode of prosecution to that ancient and highly esteemed one recognized by the laws and Constitution of the State. I mean the trial by jury."

If disqualification to vote was part of the punishment of treason, before the treason was committed, then the law punishes the supposed offence in part, without trial and conviction. If it can so impose part of the punishment, it can so impose all, and hang every man who will not swear that he is innocent. If it was *no* part of the punishment, the law imposes a new punishment *ex post facto*, without trial and conviction, and could with the same right impose the punishment of burning at the stake, on every one who would not swear to his innocence.

Mr. Hamilton said: "Nothing can be more repugnant to the true genius of the Common Law, than such an inquisition as has been mentioned into the consciences of men." If property, he said, was attempted to be taken away in that mode, everybody would see that the proceeding was tyrannical; but when the same means were employed "to divest that right which ought to be deemed still more sacred," many were so infatuated as to overlook the mischief He said:

"It is an improper mode" [of ascertaining who had forfeited their rights as citizens]; "because it puts the most essential interests of the citizen upon a worse footing than we should be willing to tolerate where inferior interests were concerned; and because, to elude the Treaty, it substitutes for the established and legal mode of investigating crimes and inflicting forfeitures, one that is unknown to the Constitution, and repugnant to the genius of our law."

Such was the opinion of Alexander Hamilton. Such is the opinion of the Supreme Court of the United States. Is there any flaw in the reasoning? Is there any weak place in the argument? Is there any sophistry in the opinion? None.

GENERAL NEWS.

—Jacob R. Bacon, of Springfield, Ill., died on Saturday from the effects of a dose of strychnine, administered by a partially crazy wife as a remedy for a slight indisposition.

—At Mitchell's Crossing, near Fairfield, Iowa, last Friday evening, a young man and a young woman were instantly killed, and three men seriously injured by a train running into a wagon, in which they were trying to cross the track. At the same place, and on the same day, a tight-rope walker stretched his rope across the street, and attempted to walk it while under the influence of liquor, but upon his way across the second time, fell from a distance of forty feet, striking on his shoulder. At present he lies at the point of death.

—John W. Aiken, an old and prominent citizen of Nashville, is dead.

—An aged woman named Alvina Profit, fell and broke her neck in Nashville on Sunday night. Her son was blown up on a steamboat some years ago. His death caused her to become insane, which condition she has remained in ever since.

WASHINGTON.

Special Telegrams to Cincinnati Commercial of Tuesday.]

One of the administration papers today announces again, in contradiction of contrary rumors, that Messrs. McCulloch, Browning, Welles and Randall, of the Cabinet, support Seymour and Blair, and that Seward has not yet made up his mind.

Attorney General Evarts has indicated his opinion that eight hours constitute a legal day's work, under the law of Congress, and as soon as he returns he will submit a formal opinion, denying the right of the Government to deduct the wages of laborers as allowed by law.

It is announced that Gen. Rosecrans' instructions are not of the specific character which has been represented. They merely request him to take no side in political contests in Mexico, but are general in terms, and require him to protect American interests there in life and property.

A woman was arrested here to-day on the charge of having passed a counterfeit fifty dollar bill on the First National Bank of Jersey City, and in the course of the examination it appeared that she obtained them from the messenger who was arrested for abstracting the same a year since. The note was from the genuine plate, but the signature was forged.

The Knights Templar of this jurisdiction have been for several weeks past perfecting arrangements to visit St. Louis and join in the festivities and imposing ceremonies incident to the conclave. Every arrangement is now completed, and the Sir Knights of Washington, Philadelphia, Wilmington and New York, will attend the conclave in large numbers, and will meet at some point on he route to St. Louis, arriving there in a body. The Sir Knights of Washington leave this city on the 11th of September.

WE desire to call the attention of our Memphis merchants who are about purchasing their fall stocks, to the fact that the "Star" Union Fast Freight Line is bringing goods through to Memphis from the Eastern cities in from six to eight days' time. This line is managed throughout its entire length by men of many years' transportation experience, and as those who have done business with it will testify, is perfectly reliable in every particular. tf

A GOOD ADVERTISING MEDIUM in the counties of Tipton, Lauderdale, Haywood and Fayette, is the *Tipton County Record*, edited by Col. B. P. Rose, and published every week at Covington, Tipton county, Tenn. The paper is thoroughly white in its tone and principles, is ably edited and managed, and has a large circulation in the counties named. Col. Rose, the editor, is in the city at present, soliciting advertisements. Any favors left for him at this office will be promptly attended to.

PERSONAL.—We had the pleasure of meeting, yesterday, E. H. Poe, Esq., of the Des Arc *Citizen*. Mr. Poe is in the city soliciting advertisements for his paper, which is one of the neatest, handsomest and largest of our Arkansas exchanges. It is also an excellent advertising medium, and we recommend it as such to our friends. Mr. Poe is stopping at the Worsham, and will remain in the city a week or so.

THE SOUTHERN HOTEL is the favorite stopping place for the planters of Mississippi, Arkansas and West Tennessee, the charges being reduced from $3 to $2 per day. The eating department is first rate, and the sleeping rooms and beds the best in the city. Free passes to and from Railroad Depots to planters, in City Railroad cars. The proprietors being old citizens, know how to please their country friends. Capt. J. E. Woolfolk, of Senatobia, will be found in the Hotel, and will be pleased to see his many friends. 50 gentlemen day boarders at $6 per week. Gentlemen may have rooms without board at $4 to $6 per week. Rates reduced from $3 to $2 per day. Steamboat and Railroad officers' patronage solicited. 1w

ROBINSON'S MENAGERIE AND CIRCUS. It is hardly necessary, in fact is absurdly superfluous, for us to announce that *the circus has come*. It announced itself yesterday, to all the people, and set our usually impassive city in quite an uproar. The display in the streets in the morning, leaving aside the usual hyperboles and ecstacies in which "locals" generally indulge when describing anything of the sort, was splendid, and merits all the encomiums that we have seen lavished upon Mr. Robinson's troupe in our exchanges. The cavalcade was all that was promised in the bills, a fact wonderful to relate; for such things, as we all know, are generally miserable displays of poor horses, dirty uniforms and tarnished tinsel. The performance in the afternoon was crowded, and gave universal satisfaction; but at night the success was grand! The canvas was crowded, and hundreds went away without being able to procure seats, swearing that they would not be "left" the next time, and would not fail to be on hand at 2 o'clock to-day.

ON THE BLUFF.—The bluff presented last night a lively and joyous appearance until a late hour. Buzzard's Roost was brilliantly illuminated, and adorned in a manner perfectly regardless of expense. It was ablaze with the light of a dozen tallow candles, more or less, which cast their dazzling rays over the assembled multitudes who had come together to listen to a speech from the apostles of devilry and radicalism—Gen. Smiff and Judge Lewis. The air was redolent with the perfume of a thousand "bucks," and musical with their soft and pleasant bowls. Speeches were made—the big drum beat, and the crowd yelled and screeched until nearly midnight. We tried to get close enough to hear something of what was said, but the only thing we heard was a nigger orator, who declared that "Jesus Christ rose on the fird day, and de fird day of dis November Ginral Grant an' Colfax gwine to rise ober dis country." A second Calvary, indeed! Christ and the two thieves. During the excitement of speechifying, several pistol-shots were fired in rapid succession in the crowd, and we began to think that the irrepressible conflict had begun. As far as we could learn, however, no one was hurt, (more's the pity!) At writing (eleven o'clock) the buzzards are still flapping their wings, screeching and "perfuming the summer air."

MEMPHIS AND CHARLESTON RAILROAD.

Meeting of Stockholders Yesterday.

Annual Report of the President.

Pursuant to the call, about sixty of the stockholders in the Memphis and Charleston Railroad assembled at the rooms of the Chamber of Commerce yesterday. The meeting was called to order at 11 o'clock a.m., by M. J. Wicks, President of the road, on whose motion Gen. J. D. Rather was called to the chair.

The President, in opening the proceedings, stated that the stockholders of the Memphis and Charleston Railroad Company had met that day for the purpose of receiving the fourteenth annual report of the Board of Directors, and for the transaction of general business. He returned thanks for the honor that they had conferred upon him in calling him to preside over their deliberations, and announced that the meeting was ready to proceed to business.

On motion of Col. Sam Tate, W. H. Douglas, Esq., was requested to act as Secretary.

Col. E. W. Mansford moved that J. T. Potter, Esq., be requested to act as Assistant Secretary. Carried.

Col. Tate offered a resolution that all proxies not regularly stamped with the seal of the company should be so stamped by the Secretary of the company. Carried.

On motion of Col. Tate, the Chair was empowered to appoint a committee of three on credentials. The Chair appointed Messrs. F. W. Sykes, E. W. Mansford and William Simpson, who immediately retired to examine all proxies and credentials.

This duty occupied about an hour, at the close of which the chairman of the committee announced that they were ready to report, and wished to know whether the report should be in detail or in an aggregate.

Col. Bradley offered a resolution that their report be given in detail. Lost.

The report was then made in the aggregate, and showed that there were then represented by proxies, 28,279 shares, and in person, 31,914 shares, making a total of 60,193 shares, whose par valuation is $1,504,825.

Moved and seconded by Col. Abernathy that the report be received. Carried.

The chair then announced the next business in order, the reading of the report of the President of the road.

President Wicks then came forward and read his report, which is substantially as follows:

PRESIDENT'S REPORT.

In obedience to the charter and by-laws of your company, the President and Directors submit this, their fourteenth annual report to the Stockholders, embracing the operations of your company, for the fiscal year ending 30th June, 1868. To the General Superintendent's report you are referred for the details of the transportation department. It embraces all the information necessary to a satisfactory understanding of the same. From this report, you will find the receipts and expenses have been as follows:

Receipts	$1,174,914 13
Expenses	840,107 80
Leaving net earnings	$344,806 27

The general prostration of the business of the country, from various causes, has materially reduced the receipts of your road, and affected injuriously every branch of industry to an extent hitherto unknown in this country.

The gross receipts, as compared with the last fiscal year, are as follows:

For the year 1867	$1,661 612 43
For the year 1868	1,174,914 13
Deficit	$486,698 30

The reduction of expenses has been as follows:

Total for 1867	$1,[illegible] 97
Total for 1868	8[illegible] 11
Reduction	$284,317
Reduction in Net Earnings	202,381 19

While it was obvious throughout the year that your receipts were falling off very rapidly, it was not thought good policy to reduce the expenses any lower than they have been, as it would not only have affected the real value of your property, but the character and reputation of your road. No effort has been spared to keep your roadway and machinery in good condition, while great additions have been made to permanently improve your road bed, bridges, buildings and rolling stock, as well as to provide pavements between your depot at Memphis and the river, to guard against the disasters of the winters of 1866 and 1867, against which you are now secure, having a fine Nicholson pavement on two sides of your entire depot grounds, and three streets paved in same manner to the river, and penetrating every part of the business portion of the city, rendering your depot accessible at all seasons of the year. The General Superintendent's report gives a full statement of all the facts connected with his department. You will find, on an examination of it, and a careful comparison of his expenditures with the previous year, shows a proportionate reduction in expenses fully equal to the reduction in receipts, when the fact is considered that, for a large part of the year, from your peculiar position you were compelled to run a double daily passenger train to Chattanooga, three hundred and ten miles, with but one connection beyond there on either of your main lines. You could not connect with Virginia and Washington, and with Georgia and South Carolina, without running two trains daily, as the roads beyond you only run one, and those at different hours. With your complication and competition you could not afford to lose either connection. This has added greatly to your expenses of running trains. Your receipts per mile have been smaller than usual, on account of the broken-down condition of the country, but there is a point below which your expenses cannot come without seriously detrimenting your property, and you must look to increasing your receipts, rather than a further reduction in expenses, as the true source of your prosperity. An examination of the General Superintendent's report will show that his expenses per mile of road operated, with the number of trains run, as well as his expenses per mile, will bear a favorable comparison with the best operated roads in the country. The regularity with which the trains have been run, and their almost entire exemption from accidents, reflect great credit upon him as well as his subordinate officers, and I cannot say too much in commendation of him or them for their zeal and fidelity to your interest. There are several points in relation to the business and expenses of the operations of your road for the past year, to which your attention is especially called. During the first four months of your fiscal year (July, August, September and October), which are ordinarily average months of the year, owing to the severity of the cholera and yellow fever epidemics at Memphis, business was driven from your line, and it became almost impossible to get men to brave its dangers to operate your road at any price; so that the four months, or one-third of the year, your

Entire receipts were only	$387,564 51
While your expenses ran up to	373 446 71
Leaving a net profit for one-third of the year, only	$14,118 40

So that, from extraordinary causes, you have been deprived of one-third of the profits of your road for the year. The remaining two-thirds of the year yielded a net profit of $330,687 87.

But for these extraordinary casualties, the road would probably have yielded its average profit for these four months, which should have been $165,343 93, making nearly as much net as the previous year, say—$506,031 80.

It will be observed that the expenses for the last eight months of the year were only $456,661 75, or $57,082 72 per month, and it is believed, with the present improved condition of your roadway and rolling stock, that this low rate of expenses per month may be obtained in future. At least a fair estimate may be set down at $60,000 per month, or $720,000 per annum. With the present flattering prospect for a good crop of cotton, as well as cereals of every kind, it is believed that your road's receipts must greatly improve during the next year, and we may hope we have passed through the fiery ordeal and have seen the bottom of our troubles, and may confidently look for better times in future. Your receipts in future, it is confidently believed, will reach a sum sufficient to pay interest on all your bonds, and a semi-annual dividend of six per cent. to your stockholders, which will require $575,007 30, as follows:

Two semi annual dividends of three per cent. on $5,312,725 stock	$318,765 50
Interest on State of Tennessee debt at six per cent. on $1,585,530	95,731 80
Interest on first mortgage bonds at seven per cent on $1,293,000	90,510 00
Interest on second mortgage bonds at seven per cent. on $1,000,000	70,000 00
Total sum required	$575,007 30

Your floating debt being all paid, or ample means provided, you will have no outside interest or other matters to provide for. With a considerable amount of bonds of other roads on hand, and other assets that may be made available, it is believed you may expect your receipts in future, with your reduced expenses, to be amply sufficient for the payments above stated. You will have no negotiations to make, your finances being easy and your property in good condition. It is only a question of a little time, to allow the country to recuperate from the terrible ordeal it has passed through during the past seven years, most of the time in a civil war, which has left behind it all the elements of destruction to the material interests of the country generally, incident to such conflicts. To sustain these views and show that your business has been reduced temporarily, and will surely revive with the country, it is only necessary to compare the through with the local receipts for the years ending June 30, 1867 and 1868. You will find that 39 per cent. of the entire falling off in freights and passengers has been from the local business, and only 18½ per cent. in through business. This latter small falling off shows really an increase in proportion to the amount of through business done over the whole country; and with but little improvement in the general business of the country, you will soon exceed your original receipts on through business.

Deficit in total business of 1868 from 1867 ..... 29½ per cent.
Deficit in local business ..... 39½ per cent.
Deficit in through business ..... 18½ per cent.

ROADWAY DEPARTMENT.

Your roadway department has been under charge of a chief engineer, and to his report you are referred for its condition, together with details of his operations, as well as the itemized statement of the new improvements made in roadway, buildings, bridges, etc.

The roadway was never in better condition, or capable of higher speed, with greater safety; it has been done with a proper regard to durability, as well as economy.

A comparison of the roadway expenses proper for the last with the previous year, shows a decrease of $122,888 93 in that department, while its condition has been greatly improved, thereby reducing your liabilities to accident and rendering your wear and tear to machinery much less, and enabling you to greatly increase your speed with safety and economy.

FINANCIAL CONDITION.

The abstract attached to and forming a part of your Treasurer's report, gives the receipts and disbursements of the road for the fiscal year in a condensed form, that will enable you at a glance to comprehend the operations of the Treasury Department.

Your floating debt has been reduced during the year	$595,384 40
And your funded debt increased	762,000 03
To-wit: Increased issue of second mortgaged bonds, $762,000	
Less first mortgaged bonds redeemed 1868	702,000 00
Your entire funded debt is now	$3,888,530 00
Your floating debt is nominally	326,552 72

But a large amount of this is the balance standing to the credit of old dividends, pay-rolls, unpaid coupons, amount to credit of individuals, that are settled and canceled monthly, and will rarely ever be less than now. Hence you have only to provide for your

Bills payable	$111,228 55
And probably one-half of your pay-rolls and unpaid coupons	42 889 46
And one-half of your unpaid dividends	17,676 89
Due to United States Internal Taxes [illegible] Department	11,192 30
Revenue [illegible]	$182,986 20
Making in a [illegible] have cash	
Against this [illegible]	$67,568 04
on hand [illegible] New Le-	
And in hands of Wins[illegible]	40,353 51
nter & Co., New York [illegible]	17,857 77
Due from U. S. Government	6,579 44
Due by agents	[illegible]
Making a total equivalent to cash o[illegible]	$134 378 76

Most of your bills payable do not mature until next fall and winter, consequently your finances are easy. Besides this, you have $464,000 00 of coupon bonds of other roads that will finally be good on most of them. Your dues from railroad companies, individuals, bills receivable, and other sources not enumerated above, will be ample to meet all liabilities to individuals, railroads, etc., not specifically provided for, and leave a large balance over. These and balances standing to the credit of unpaid coupons, unpaid dividends and pay rolls have been accumulating for over ten years, and many of them will never be called for, the evidence of liability having been destroyed during the war. They will finally have to be charged off to profit and loss.

Your road and its rolling stock being in fine condition and your finances easy, with fine prospects of crop and business this fall, you may reasonably hope that your worst troubles are passed and look to the future with brighter anticipations than at any time during the past year.

YOUR CONNECTIONS.

I cannot close this report without alluding to the importance of your future Railroad connections. The most important of which is the one that will give you a direct connection from some favorable point in North Alabama to Atlanta, and thence to Charleston and Savannah. I have recently had correspondence with Judge King, of Georgia, and Mr. G. H. Hazelhurst, both prominent Railroad men of that State, who say the Railroad fires are again beginning to burn in Georgia, and they are anxiously looking to the building of the Atlanta and Decatur Railroad, *and ask* "Can you do anything for it west of Sand Mountain." The time is probably near at hand when, with proper co-operation, this road can be speedily built. As to its importance as a connection for your line, (as well as to republish his views regarding other important connections for your road), I cannot more forcibly impress upon you the importance, than to quote what my immediate predecessor said in his last annual report, and urge you to take action in the premises at the earliest practicable moment.

[Here the President quoted at length from the said report, which is, however, too lengthy to be inserted here.]

The Decatur and Montgomery connection gives you a direct line to Montgomery, the capital of Alabama, and to Pensacola, the best harbor upon the Gulf of Mexico, passing in its course, within eighty miles of your road, through the most extensive iron and coal fields in the United States, and would bring you an immense business from this mineral region for local consumption on your line.

* * *

THE MEMPHIS AND LITTLE ROCK ROAD penetrates the West from your western terminus, and will bring a large trade to Memphis, to be distributed to the various lines of road concentrating at that point. It is now so far advanced that some arrangement should be made to complete it; and it has been rumored that some of the Northern lines are bidding for its control, in order to secure the through business from that remote Western region penetrated by this road. It has been proposed to us to join the Memphis and Louisville line, in giving them such aid as will secure their early completion, and assure to each line a fair and equitable distribution of its business, without discrimination. I regard it so closely connected with you that it will almost be equal to an extension of your line, should you secure an equal voice in its management, which by all means should not be allowed to pass out of your hands if possible to obtain it.

The Westchester and Huntsville connection is a short one, only requiring eighteen miles of road to complete it from Huntsville to Rock Spring. It will bring you in direct intercourse with Lincoln, Marshall, and other wealthy counties in Tennessee, and give you a large local trade to pass over your main line. You have $300,000 of Tennessee State aid that can be used for this connection, and I cannot hesitate to recommend that you make arrangements to secure it as soon as you can get satisfactory legislation from the State of Tennessee for its consolidation with the Winchester and Alabama Railroad, upon satisfactory terms. This line will finally be completed through to Cincinnati, and give you an important Northern connection.

COL. SAM. TATE.

Since your last Annual meeting, you have lost the valuable services of Col. Tate, who has served you with marked success for a term of years. Upon presenting his resignation as President of your Board of Directors, the following preamble and resolution was passed:

"This Direction have just heard read the communication of President Tate, tendering his resignation as President of this company. The kind sentiments he expressed in taking his leave of a company over which he has presided so successfully for the past fourteen years, are heartily reciprocated by this Board, and the Board cannot permit the separation to take place without expressing regret at the necessity which impelled our President to terminate his connection with this Company, and saying that his ability and energy will insure success in whatever enterprise over which he may be called to preside; and the direction now express the earnest desire that he may long live in health to contribute to the prosperity of his country.

Resolved, As a token of our appreciation of the services of Col. Sam. Tate as President of this company, a service of silver not exceeding one thousand dollars in value, with appropriate inscriptions thereon engraved, be prepared and presented to him by this company.

The Board with pleasure bear testimony to the efficiency, zeal and fidelity with which the officers in charge of the several departments, and those employed under their direction, have discharged their duties during the past year.

Respectfully submitted, M. J. WICKS, President.

Col. Mansford moved the report be received and adopted, which was unanimously done.

Col. Sam Tate then came forward, and in a short, pathetic and eloquent address tendered his letter of resignation, giving his reasons for so doing substantially as they are embodied in the letter which follows:

WATER VALLEY, MISS, August 24, 1868.

To the Stockholders in the Memphis and Charleston Railroad Company:

Gentlemen: The fortunes of war and other circumstances over which I have had but little control, having so changed my circumstances that it became a duty to myself and family, on the 26th of May last, to resign the position I had held as President of your Board of Directors for over fourteen years; and having been honored by them with that position, I felt it my duty to return the trust to those who bestowed it. Having received and held the position of a director in your company for a similar period at your hands, I now tender you my resignation as a member of your board. My recent engagements will not permit my giving it that time and attention that it requires. In thus severing my connection with your company, permit me to return you my most grateful thanks for the generous confidence so long and so unanimously bestowed. It is with regret I leave you, and nothing but my necessities could have induced me to take the step. My life and character, and my fortune, have been so closely allied to your company, that I cannot but look back upon my intercourse and connection with you, as the child upon its honored parents, and even regret the necessity for the separation, repeating to you, each and all, my grateful thanks and my best wishes for your prosperity and success.

I am, gentlemen,
Your obedient servant,
SAM. TATE.

Col. Abernethy moved the letter be received and placed on the records. Carried.

Here Col. Donegan took the floor, and said that he arose for the purpose of paying a tribute to the fidelity, energy and industry with which Col. Sam Tate had served the Stockholders of the Company. He had been associated with him, and felt and knew that Col. Tate had used every energy of mind and body to the furtherance of their interest, and they were indebted to him deeply. Inasmuch as he (the speaker) was a member of the Board, whose action had just been indorsed, and had already participated in the same ceremony, he was in favor of some one of the stockholders would move the duty off his hands and have taken action expressing these sentiments.

The Chair suggested that no one could do it better than the Speaker, and he accordingly started to prepare them.

Col. Sykes, of Alabama, having already prepared a resolution looking to this end, requested permission to offer it. Permission was given, and the following was offered and carried unanimously:

Resolved, That the stockholders of the Memphis and Charleston Railroad Company have heard, with sincere regret, the causes which have compelled our late President, Samuel Tate, to resign his position; that we greatly regret the loss of his energy, his ability and fidelity in his management of its affairs, and that our best wishes for his health, prosperity and happiness go with him in his future.

Col. Tate briefly returned thanks.

Moses Maples, Esq., of Jackson, offered the following:

Resolved, That the Board of Directors of the Memphis and Charleston Railroad be instructed to inquire into the expediency of reducing the passenger fare on said road to four (4) cents per mile.

President Wicks stated that arrangements had been already made at the last meeting of the Board, by which those who traveled much on the road traveled at reduced rates—three and four cents a mile.

Mr. Maples supported his resolution in a few remarks, as did Col. Abernethy.

The question was then called for and the resolution carried.

The Chair announced that on the 16th of September an election for Directors will be held, at Huntsville and Memphis. Those stockholders living and having their stock registered on the eastern end of the road voting at Huntsville, and those on the western end at Memphis.

A large amount of stock being held in New York, and in order to prevent fraud in voting by proxies, Col. G. P. Beirn offered the following, which was carried unanimously:

Resolved, That the officers of the Memphis and Charleston Railroad, in New York, be required to furnish a list of the stockholders to the Secretaries of the road at Memphis and Huntsville, five days before the annual election of Directors, so that the said stock may be voted at either Memphis or Huntsville.

There being no further business before the Convention, on motion it adjourned.

ALL colored men of the Seventh ward are cordially invited to attend a meeting at Ferguson Hall on Thursday at 8½ o'clock p.m., for the purpose of organizing a Ward Democratic Club. Hon. J. W. Leftwich is expected to address the meeting.

POLICE ITEMS.

—Moritz Wolff was finally admitted to bail yesterday by 'Squire Kiernan, in the sum of six thousand dollars, to appear at the October term of the Criminal Court.

—William Weaver, charged with till tapping, was shut up by 'Squire Kiernan yesterday in default of $1000 bonds to answer to the Municipal Court.

—Martha Harris and Julia Thorp are two sweet tempered wenches, who have been amusing themselves by assaulting each other with knives. 'Squire Griffith sent them up in default of $500 bonds to keep the peace.

—Albert Early, charged with shooting Bob. McLean, was brought up yesterday, and the 'Squire continued the case till to-day. Meanwhile Albert stays in jail in default of $2000 bail.

—Susan Harris and Eliza Jones, charged with attempting to poison Hiram Tolliver's cistern, were examined before 'Squire Griffith yesterday. Eliza was discharged, but Susan was committed to jail, in default of $3000 bail, to answer to the next term of the Criminal Court.

—There were nine arrests in the Second district up to eight o'clock last night—all for trifling offenses. Fifty-five dollars were assessed in fines, and ten collected.

—Officer H. P. Sheffer, Second district, arrested and locked up Wesley Gatewood for having stolen goods in his possession. He will be examined to-day.

TO EDITORS OF APPEAL: You will certainly render me space for reply to falsehoods from "John Leslie, 7 Madison street," in your local columns of 25th inst. The property referred to (Lot No. 6,) was assessed to one "Keep," for years 1866 and 1867. Keep never paid the taxes. The lot was sold July, 1867, for the taxes delinquent for 1866, the State being the purchaser. Afterwards the "Leslie" called to pay on same lot taxes for 1867, which he paid, alleging his purchase from Keep, and was then informed of the sale for taxes for 1866, and was told of the mode of its redemption. His money for this was forwarded to the Comptroller, Nashville, who returned him certificate of redemption.

I cannot permit my name to be willfied, as is attempted by said slanderer.

The above is a true statement of the matter; and in imputing to me the reception of monies paid twice for the same lot for the same year, he is a liar with malice aforethought, and a villain.

A FIRST-CLASS NOTICE.—We have had occasion, once in a while, during a long connection with the press, to "hand gentlemen around," and have once or twice given individuals of the genus "D. B." what we thought some first-class notices, but all that we have seen or written pale their ineffectual fires and fade into insignificance before the following A A 1 strictly first-class notice, which we clip from Alf. Kieroff's paper, the Council Bluffs *Democrat*:

TO PUBLISHERS AND PRINTERS.

The craft, as well as the public generally, are hereby notified that a printer, a "dead beat," a drunken braggadocio and unmitigated liar and scoundrel, a "rat" and low down thief, late a foreman in our newsroom, by the name of John C. Layton, is afloat, and is likely to turn up in some respectable printing office to look for a "sit." He is about five feet five inches high, heavy set, and a little bald; and hails from Blairsville, Indiana county, Pa. We insert this notice to protect the unsuspecting against his depredations and thefts. He has stolen from us not less than five hundred dollars, and at least one hundred dollars from the compositors in this office, and in reference to which full particulars may be had by addressing this office. Publishers will confer a favor by noticing this item in their papers.

NOTICE.—A report having by some means obtained circulation, that we would in the future discontinue the sale of cotton on commission, we take this method of pronouncing such report as utterly unfounded, and we fear of malicious origin. Thankful for the very liberal patronage heretofore received from the public, we hope still to merit a continuance of their confidence and patronage. We take pleasure in announcing that we will continue the cotton factorage, grocery and commission business, as heretofore, and will at all times be pleased to see and serve our friends. We are now receiving a large and carefully selected stock of goods, purchased by our Mr. Meacham in the Eastern markets, which we will sell at the lowest market prices. Our Mr. Treadwell will give his entire time and attention to the sale of cotton, and flatters himself that he will be able to give satisfaction to all who may favor us with their patronage. We are, for the present, at No. 13 Union street, but will be in our new and commodious store, at our old stand, No. 9 Union street, by the 10th of September.

IT is not our wish to oppress any one with a suit for amounts due us for paving. We are willing to make any reasonable arrangements with those who wish to pay. All who desire to do so can make any reasonable and reliable arrangements for payment by calling at the office of the Company from 8 to 10 o'clock a.m., and thus avoid suit.

MISCELLANEOUS.

The towboat Atlantic passed up yesterday.

The Plain City is running from Vicksburg up the Tallahatchie, in place of the Countess.

The Wild Wagoner is again running from New Orleans to Natchez.

Ray, one of the witnesses in the case of Capt. Donaldson, of the Great Republic, and who for some time has been missing from St. Louis, was arrested at Saratoga the other day.

The Celeste goes into the New Orleans and Red river trade, in place of the St. Nicholas.

The Rubicon, Capt. Blake, will pass down on Friday for Vicksburg and the bends.

The Rubicon, on her trip up, on Saturday night last picked up a snag, which went through a wheel-house and deranged matters generally. She fixed up at Cairo and left all right for St. Louis on Sunday.

Capt. Steritt's new steamer, the Thos. M. Bagby, is ready for business, and will commence receiving to-day for New Orleans, Galveston and Houston. She is lying at Louisville.

The United States snag boats S. H. Long and J. J. Abert are lying at Mound City.

The Tennessee, upon coming off the docks at Cairo, will resume her place in the Louisville and Cairo trade.

An old gentleman who came up on the Emma No. 3, was robbed of a pocket book containing $250 by some Mackerels, just before leaving the boat at this port.

The Marble City, Capt. Conway, with Mr. Corbyn at the desk, will back out to-day, at five p.m., for Cairo and St. Louis, making all intermediate landings.

The Mayflower, Capt. Ashford, leaves on Saturday for White river and way points.

The gay Natoma, Capt. Jim Lee, backs out this evening for Napoleon, where she connects with the Arkansas packet for Little Rock. In the Natoma's office will be found Messrs. Fields, Whitehead and Lee.

A writer from Bath county, Va., says, that at the mouth of Sir Johns river, 2½ miles from Berkely Springs, the first attempt at propelling vessels by steam were made. A man named Rumsey, in 1773, made a little boat and placed in it an engine, the steam from which was thrown directly from the stern of the boat upon the water, the reaction urging the boat forwards. He made other experiments, and then went to Great Britain and explained his plans to Watts and others. Fulton was then there, and, doubtless received many valuable suggestions from Rumsey, which he improved upon, until he made his successful essays on the Hudson. It is needless to state how these again have been improved upon, so that oceans and seas are traversed in marvellously shorts period.

At noon on Tuesday, September 1st, the Government will sell at Mound City Ill., the side-wheel steamer Grampus, 300 tons, and the side-wheel steamer Pansy, 50 tons.

The New Orleans *Crescent* says: A genuine carpet-bagger arrived in the city last evening from some landing between here and Bayou Sara (he was colored). In his right hand he carried a well filled carpet-bag, and in his left a double-barreled shotgun. As to what official position he is an applicant for, we failed to ascertain.

FINANCIAL AND COMMERCIAL.

OFFICE OF THE DAILY APPEAL, MEMPHIS, August 26, 1868.

The movements in domestic exchange continue of a limited character. The offerings especially in New York are just about equal to the call, but we hear of occasional shipments of currency to Cincinnati and St. Louis, but as a general thing balances due at those points are met by New York drafts, which are generally preferred to local drafts. All the Eastern bills offered are taken at par with occasional exceptions at ¼ to ½ premium, just as our banks happen to be supplied. The selling rate is uniform at ¼ to ⅝ premium. There is a little doing in the line of discounts, but all paper upon which action is taken must be of the gilt-edged kind, and rates are somewhat irregular, running from ½ to 1c per cent. per month.

Bonds and stocks are quiet. The only sale reported was one of 115 shares Memphis and Charleston Railroad stock at 58½c. The officers and stockholders of this road held a meeting yesterday in the hall of the Chamber of Commerce, at which the reports of the different officers were read. Particulars will be found in our local columns. Other bonds and stocks are nominally unchanged. City bonds are scarce. We could here of neither offerings or sales, and quote nominally at 50½ to 51c.

There is a better demand for Scrip; a lot of $2000 was taken at 71c by a dealer, and an offer of 72c for a like amount was refused. Orders can be filled at 73c by dealers, but we do not think there is much in the hands of anxious sellers.

County Warrants are in demand. A dealer sold $1000 at 52c, which was rather under the market, as others are buying all small warrants offered at that figure.

Police Scrip is firm. Buying at 75c; selling at 80c.

Gold opened in New York to-day at 144¼, and closed at 145. A few limited amounts were taken here at 142@143.

The New York Stock Board quotations at noon to-day were as follows: 5-20s '81 113¾; '62, 112¾; '64, 109¼; '65, 110¾; new issues, 107¾; '67, 107¾; 10-40s, coupons, 108¾; bonds strong.

The British Government having just made provision for the purchase of all the telegraph lines of the kingdom, Mr. John Ruskin now demands that the Government purchase and manage all the railroads of the kingdom. He argues that private persons should not be permitted to own the railroads of a nation; that all means of public transit should be provided at public expense; that neither railroads nor canals should ever pay dividends to anybody, but should pay their working expenses and no more, and that the whole work of carrying persons or goods should be done as the carriage of letters is now done, etc.

New Cotton goes into New Orleans quite freely—100 bales were received on Monday and Tuesday last.

Cotton was buoyant at the opening in Liverpool to-day: Uplands 10¾; Orleans 11¼d. It was still buoyant at the close, with sales of 20,000 bales—Uplands 11d; Orleans 11¼d.

The New York market opened quiet but firm at the opening—Middlings 30¾c, and closed steady with a fair demand. Sales 2000 bales.

BUCKEYE SALVE

—FOR THE—

CURE OF EVERY FORM

—OF—

HEMORRHOIDS OR PILES

WHETHER OF LONG STANDING OR RECENT origin, internal or external, whether attended with Prolapsus, Hemorrhage or obstruction, and all by

External Application,

No internal adjuvants being required in any case, only to regulate the bowels, if constipated, or in Diarrhea and Dysentery.

THE PILES, while astonishingly prevalent in their various forms amongst all classes of both sexes, are, at the same time, the most distressing, frequently dangerous, and hitherto most fatal of cure.

Persons who suffer any length of time with the Piles generally try everything they can learn of purporting to cure the disease, but realize no permanent advantage therefrom. They have been told professionally, perhaps, there was "no permanent cure for Piles," and consequently have despaired of any future cessation from pain and suffering.

To all such a SPECIFIC is offered for their relief. The

BUCKEYE SALVE

Is a strictly scientific combination of well known remedial agents, and the proprietors have no hesitation in saying the BUCKEYE SALVE is the

ONLY INFALLIBLE SPECIFIC

Ever discovered for that disease, and which cures by outward application only, and that in time to come, as in the past, it will stand the test of trial without a failure, is perfectly what the proprietors claim for it, if the directions are attended to.

A large number of gentlemen throughout the country of high character and influence have voluntarily attested to its efficacy in their own cases, from hearsay, and whose certificates may be seen by reference to the publications.

The proprietors will forward to any address one bottle, postpaid, on receipt of the retail price, $1 00 per Bottle.

A Liberal Discount to Druggists and Dealers in Medicine.

This Salve will keep in any climate for years

Our Latest Improved

NEW SCALE PIANO-FORTE.

GROVESTEEN & CO.,

499 Broadway, N. Y.,

THESE instruments, after the most flattering testimonials from the first Pianists in the country, who, at our solicitation, have tested them in the severest manner possible, have been pronounced THE FINEST SQUARE PIANO-FORTE MADE IN THE WORLD.

It has always been our policy, during the *thirty-six* years that we have manufactured Pianos, *twelve thousand* of which are now in use in the United States and Europe, to give the finest instrument at the lowest cost. Superior facilities enable us to offer them from one to three hundred dollars less than any other First Class House.

The tone of these instruments are remarkable for their peculiar Sweetness and Great Brilliancy, never losing their quality when forced to their utmost capacity. The lower register retaining its positiveness, does not destroy the middle and upper registers by mingling with them in disagreeable confusion. The refined beauty of tone being equally delightful to the unpracticed and to the most cultivated ear.

They are in an entirely new style of Piano, finished in the most superb manner, *with four full round corners front and back*, heavily carved legs and Lyre Serpentine Base richly moulded, and each instrument is fully warranted for five years. sep6 d&w1y

REMOVAL! REMOVAL!

ROYSTER, TREZEVANT & CO.,

Auctioneers & Real Estate Brokers

HAVE REMOVED TO

N. E. Corner Main and Jefferson Streets.

IN announcing our new location, as above, we beg leave to return sincere thanks for past patronage, and hope to have the pleasure of meeting all our old friends, and many new, in the central and prominent position to which we have removed. The

Real Estate Agency

in all branches, will, as heretofore, be a leading feature of our business, and, by long experience and general acquaintance with the owners of Real Estate, both in and out of the city, we hope to make our office a general resort for the exchange of title in city or country property.

Our Rental Department

Continues under the efficient management of H. L. GUION, Esq., who will attend promptly to Collecting Rent, Paying Taxes, etc.

Public Sales of Merchandize

Will also be a specialty of our business in which the central and conspicuous situation of our Salesroom offers superior advantages to consignees, to whom we will make the most liberal advances and terms on goods to be sold by auction. au7 ROYSTER, TREZEVANT & CO.

WE desire to call the attention of our Memphis merchants who are about purchasing their fall stocks, to the fact that the "Star" Union Fast Freight Line is bringing goods through to Memphis from the Eastern cities in from six to eight days' time. This line is managed throughout its entire length by men of many years' transportation experience, and as those who have done business with it will testify, is perfectly reliable in every particular. tf

A GOOD ADVERTISING MEDIUM in the counties of Tipton, Lauderdale, Haywood and Fayette, is the *Tipton County Record*, edited by Col. Sam. P. Rose, and published every week at Covington, Tipton county, Tenn. The paper is thoroughly white in its tone and principles; is ably edited and managed, and has a large circulation in the counties named. Col. Rose, the editor, is in the city at present, soliciting advertisements. Any favors left for him at this office will be promptly attended to.

PERSONAL.—We had the pleasure of meeting, yesterday, E. H. Poe, Esq., of the Des Arc *Citizen*. Mr. Poe is in the city soliciting advertisements for his paper, which is one of the neatest, handsomest and largest of our Arkansas exchanges. It is also an excellent advertising medium, and we recommend it as such to our friends. Mr. Poe is stopping at the Worsham, and will remain in the city a week or so.

THE SOUTHERN HOTEL is the favorite stopping place for the planters of Mississippi, Arkansas and West Tennessee, the charges being reduced from $3 to $2 per day. The eating department is the best in the city. Free passes to and from Railroad Depots to planters, in City Railroad cars. The proprietors being old citizens, know how to please their country friends. Capt. J. E. Woolfolk, of Senatobia, will be found in the Hotel, and will be pleased to see his many friends. 50 gentlemen day boarders at $6 per week. Gentlemen may have rooms without board at $4 to $6 per week. Rates reduced from $3 to $2 per day. Steamboat and Railroad officers' patronage solicited. 1w

ROBINSON'S MENAGERIE AND CIRCUS. It is hardly necessary, in fact is absurdly superfluous, for us to announce that *the circus has come*. It announced itself yesterday, to all the people, and set our usually impassive city in quite an uproar. The display in the streets in the morning, leaving aside the usual hyperboles and ecstacies in which "locals" generally indulge when describing anything of the sort, was splendid, and merits all the encomiums that we have seen lavished upon Mr. Robinson's troupe in our exchanges. The cavalcade was all that was promised in the bills, a fact wonderful to relate; for such things, as we all know, are generally miserable displays of poor horses, dirty uniforms and tarnished tinsel. The performance in the afternoon was crowded, and gave universal satisfaction; but at night the success was grand! The canvas was crowded, and hundreds went away without being able to procure seats, swearing that they would not be "left" the next time, and would not fail to be on hand at 2 o'clock to-day.

ON THE BLUFF.—The bluff presented last night a lively and joyous appearance until a late hour. Buzzard's Roost was brilliantly illuminated, and adorned in a manner perfectly regardless of expense. It was ablaze with the light of a dozen tallow candles, more or less, which cast their dazzling rays over the assembled multitudes who had come together to listen to a speech from the apostles of devilry and radicalism—Gen. Smiff and Judge Lewis. The air was redolent with the perfume of a thousand "bucks," and musical with their soft and pleasant howls. Speeches were made—the big drum beat, and the crowd yelled and screeched until nearly midnight. We tried to get close enough to hear something of what was said, but the only thing we heard was a nigger orator, who declared that "Jesus Christ rose on the fird day, and de fird day of dis November Gineral Grant an' Colfax gwine to rise ober dis country." A second Calvary, indeed! Christ and the two thieves. During the excitement of speechifying, several pistol-shots were fired in rapid succession in the crowd, and we began to think that the irrepressible conflict had begun. As far as we could learn, however, no one was hurt, (more's the pity!) At writing (eleven o'clock) the buzzards are still flapping their wings, screeching and "perfuming the summer air."

MEMPHIS AND CHARLESTON RAILROAD.

Meeting of Stockholders Yesterday.

Annual Report of the President.

Pursuant to the call, about sixty of the stockholders in the Memphis and Charleston Railroad assembled at the rooms of the Chamber of Commerce yesterday. The meeting was called to order at 11 o'clock a.m., by M. J. Wicks, President of the road, on whose motion Gen. J. D. Rather was called to the chair.

The President, in opening the proceedings, stated that the stockholders of the Memphis and Charleston Railroad Company had met that day for the purpose of receiving the fourteenth annual report of the Board of Directors, and for the transaction of general business. He returned thanks for the honor that they had conferred upon him in calling him to preside over their deliberations, and announced that the meeting was ready to proceed to business.

On motion of Col. Sam Tate, W. H. Douglas, Esq., was requested to act as Secretary.

Col. E. W. Mansford moved that J. T. Potter, Esq., be requested to act as Assistant Secretary. Carried.

Col. Tate offered a resolution that all proxies not regularly stamped with the seal of the company should be so stamped by the Secretary of the company. Carried.

On motion of Col. Tate, the Chair was empowered to appoint a committee of three on credentials. The Chair appointed Messrs. F. W. Sykes, E. W. Mansford and William Simpson, who immediately retired to examine all proxies and credentials.

This duty occupied about an hour, at the close of which the chairman of the committee announced that they were ready to report, and wished to know whether the report should be in detail or in an aggregate.

Col. Bradley offered a resolution that their report be given in detail. Lost.

The report was then made in the aggregate, and showed that there were then represented by proxies, 28,279 shares, and in person, 31,914 shares, making a total of 60,193 shares, whose par valuation is $1,504,825.

Moved and seconded by Col. Abernathy that the report be received. Carried.

The chair then announced the next business in order, the reading of the report of the President of the road.

President Wicks then came forward and read his report, which is substantially as follows:

PRESIDENT'S REPORT.

In obedience to the charter and by-laws of your company, the President and Directors submit this, their fourteenth annual report to the Stockholders, embracing the operations of your company, for the fiscal year ending 30th June, 1868. To the General Superintendent's report you are referred for the details of the transportation department. It embraces all the information necessary to a satisfactory understanding of the same. From this report, you will find the receipts and expenses have been as follows:

Receipts	$1,171,974 13
Expenses	830,467 86
Leaving net earnings	$344,806 27

The general prostration of the business of the country, from various causes, has materially reduced the receipts of your road, and affected injuriously every branch of industry to an extent hitherto unknown in this country.

The gross receipts, as compared with the last fiscal year, are as follows:

For the year 1867	$1,661 612 43
For the year 1868	1,171,974 13
Deficit	$489,638 30

The reduction of expenses has been as follows:

Total for 1867	$1,114,474 97
Total for 1868	830,467 86
Reduction	$284,317 11
Reduction in Net Earnings	202,481 19

While it was obvious throughout the year that your receipts were falling off very rapidly, it was not thought good policy to reduce the expenses any lower than they have been, as it would not only have affected the real value of your property, but the character and reputation of your road. No effort has been spared to keep your roadway and machinery in good condition, while great additions have been made to permanently improve your road bed, bridges, buildings and rolling stock, as well as to provide pavements between your depot at Memphis and the river, to guard against the disasters of the winters of 1856 and 1867, against which you are now secure, having a fine Nicholson pavement on two sides of your entire depot, and three streets paved in pot ground to the river, and penetrating in the same manner the business portion of the city, rendering every part of your depot accessible to your depot accessible to the city, rendering every part of your depot accessible to your depot accessible to the city, rendering every part of your depot accessible to your depot accessible to

FINANCIAL AND COMMERCIAL.

OFFICE OF THE DAILY APPEAL, MEMPHIS, August 26, 1868.

The movements in domestic exchange continue of a limited character. The offerings especially in New York are just about equal to the call, but we hear of occasional shipments of currency to Cincinnati and St. Louis, but as a general thing balances due at those points are met by New York drafts, which are generally preferred to local drafts. All the Eastern bills offered are taken at par with occasional exceptions at ¼ to ½ premium, just as our banks happen to be supplied. The selling rate is uniform at ¼ to ½ premium. There is a little doing in the line of discounts, but all paper upon which action is taken must be of the gilt-edged kind, and rates are somewhat irregular, running from ½ to 1c per cent. per month.

Bonds and stocks are quiet. The only sale reported was one of 115 shares Memphis and Charleston Railroad stock at 58½c. The officers and stockholders of this road held a meeting yesterday in the hall of the Chamber of Commerce, at which the reports of the different officers were read. Particulars will be found in our local columns. Other bonds and stocks are nominally unchanged. City bonds are scarce. We could here of neither offerings or sales, and quote nominally at 50½ to 51c.

There is a better demand for Scrip; a lot of $2000 was taken at 71c by a dealer, and an offer of 72c for a like amount was refused. Orders can be filled at 73c by dealers, but we do not think there is much in the hands of anxious sellers.

County Warrants are in demand. A dealer sold $1000 at 52c, which was rather under the market, as others are buying all small warrants offered at that figure.

Police Scrip is firm. Buying at 75c; selling at 80c.

Gold opened in New York to-day at 144½, and closed at 145. A few limited amounts were taken here at 142@143.

The New York Stock Board quotations at noon to-day were as follows: 5-20s '81 113½; '62, 112½; '64, 109½; '65, 110½; new issues, 107½; '67, 107½; 10-40s, coupons, 108½; bonds strong.

The British Government having just made provision for the purchase of all the telegraph lines of the kingdom, Mr. John Ruskin now demands that the Government purchase and manage all the railroads of the kingdom. He argues that private persons should not be permitted to own the railroads of a nation; that all means of public transit should be provided at public expense; that neither railroads nor canals should ever pay dividends to anybody, but should pay their working expenses and no more, and that the whole work of carrying persons or goods should be done as the carriage of letters is now done, etc.

New Cotton goes into New Orleans quite freely—100 bales were received on Monday and Tuesday last.

Cotton was buoyant at the opening in Liverpool to-day: Uplands 10½d; Orleans 11½d. It was still buoyant at the close, with sales of 20,000 bales—Uplands 11d; Orleans 11¼d.

The New York market opened quiet but firm at the opening—Middlings 30½c, and closed steady with a fair demand. Sales 2000 bales.

BUCKEYE SALVE

—FOR THE—

CURE OF EVERY FORM

—OF—

HEMORRHOIDS OR PILES

WHETHER of long standing or recent origin, internal or external, whether attended with Prolapsus, Hemorrhage or obstruction, and all by

External Application,

No internal adjuvants being required in any case, only to regulate the bowels, if constipated, or in Diarrhœa and Dysentery.

The PILES, while astonishingly prevalent in their various forms amongst all classes of both sexes, are, at the same time, the most distressing, frequently dangerous, and hitherto most difficult of cure.

Persons who suffer any length of time with the Piles generally try everything they can learn of purporting to cure the disease, yet realize no permanent advantage therefrom. They have been told professionally, perhaps, there was "no permanent cure for Piles," and consequently have despaired of any future cessation from pain and suffering.

To all such a SPECIFIC is offered for their relief. The

BUCKEYE SALVE

Is a strictly scientific combination of well known remedial agents, and the proprietors have no hesitation in saying the BUCKEYE SALVE is the

ONLY INFALLIBLE SPECIFIC

Ever discovered for that disease, and which cures by outward application only, and that in time to come, as in the past, it will stand the test of trial without a failure, to perform all the proprietors claim for it, if the directions are attended to.

A large number of gentlemen throughout the country of high character and influence have voluntarily alluded to its efficacy in their own cases, not from hearsay, and whose certificates may be seen by reference to the publications.

The proprietors will forward to any address one bottle, postpaid, on receipt of the retail price, **$1 00** per bottle.

A Liberal Discount to Druggists and Dealers in Medicine.

This Salve will keep in any climate for years

Our Latest Improved

NEW SCALE PIANO-FORTE.

GROVESTEEN & CO.,

499 Broadway, N. Y.,

THESE instruments, after the most flattering testimonials from the first Pianists in the country, who, at our solicitation, have tested them in the severest manner possible, have been pronounced THE FINEST SQUARE PIANO-FORTE MADE IN THE WORLD.

It has always been our policy, during the *thirty-six* years that we have manufactured Pianos, *twelve thousand* of which are now in use in the United States and Europe, to give the finest instrument at the lowest cost. Our superior facilities enable us to offer them from one to three hundred dollars less than any other First Class House.

The tone of these instruments are remarkable for their peculiar Sweetness and Great Brilliancy, never losing their quality when forced to their utmost capacity. The lower register retaining the powerful bass, does not destroy the middle and upper registers by mingling with them in disagreeable confusion, the refined beauty of tone being equally delightful to the unpracticed and to the most cultivated ear.

They are an entirely new style of Piano, finished in the most superb manner, with *four full round corners front and back*, heavily carved legs and Lyre Serpentine Base richly moulded, and each instrument is fully warranted for five years. sep8 dawly
